

Character Development Through Community Engagement Initiatives

The
transformative
power of
belonging to a
loving family &
getting an
education.

Ubuntu – we are
better together!

Arrived angry & willing to solve her problems with her fists.

Now, takes care as a leader and looks after her juniors with love and energy.

Left primary school believing she was stupid.

Left university as best performing student in her year & now supporting 5 schools to improve their teaching & learning!

Learning from the southern African expression, 'Ubuntu', EducAid supports our students to see themselves as a community and that without each other our humanity is incomplete.

Values-focus:

- Unhiding the ‘hidden agenda’ – how we teach is as important as what we teach – peer teaching & learning
- All students work as peer-led families
- Success is everyone’s business
- Gender equality is everyone’s business
- Safety is everyone’s business
- Problem-solving over sanction focus
- Community Service

- Every Voice Counts:
 - We are a listening community
 - Participating in site briefings and meetings & shared leadership teams
 - Participating in budget planning & BVA reviews
 - Reviewing policies
 - Participating in lesson observations and feedback on teaching and teaching materials
 - Daily family meetings, creating a safe place & discussing all aspects of how the school runs

Ubuntu – we are better together

**We have a right & a responsibility
to use our voice to make the
world a better place!**
