Remember the D3 Framework?

THE EDUCATION COLLABORATIVE

How does the Framework aid Diagnostics

1. Higher-order constructs are represented in the framework.
2. Each of these has lower-order constructs.
3. Each has its indicators: how they are evidenced in the EE of the HEI.
4. We have 3 questions each, to evaluate and aid the diagnostics.

Demo!!!

What we will be doing...

Step 1: Go through the questions for the three strategic enablers for participants to complete using a Google form (<https://bit.ly/EEDdiagnose>) or a paper-based instrument and give feedback.

Step 2: Demonstration of how the evaluation occurs in the back end of the tool for both diagnostics.
