

What are three areas of students  
Internship performance your  
institution tracks/would like to track?  
.eg. Communication and Technicality

Tick the areas that are already tracked  
by your institution.

What are two tools  
you can use to  
collect the data?

What is the main  
employability goal of  
your institution?

Who will collect  
the data?

For each area identified in question 2,  
write down 2 questions you would ask to  
assess student's performance..eg.  
Communication - How well does the  
intern speak and convey ideas across?
